

**INSTRUMENTS AND METHODS FOR ALIGNING
IMPLANTS FOR INSERTION****Abstract of the Disclosure**

[0035] An assembly for aligning a prosthetic device for insertion into an intervertebral space is provided. The assembly includes an alignment instrument, a first clamp assembly slidably engaged with the alignment instrument, a second clamp assembly slidably engaged with the first clamp assembly, and an implantation device slidably engaged with the second clamp assembly, the implantation device being adapted to retain a prosthetic device thereon.
